

Ubah Medical Academy -College Course Policy

Our overall goal is to offer students a 'college' experience while in High School.

Students not only get a taste of what a college course is like, they also earn college credits while attending HS! It is also our goal to help students be successful. In order for this experience to be beneficial, it is CRITICAL that only students who are academically ready be allowed to enroll in college classes. These courses will stay on a student's permanent college transcript and affect their high school AND college GPA. Please see the conditions/terms below that must be met in order to enroll in college classes. These same terms apply to students wanting to take PSEO classes outside of Ubah.

Registration takes place in the spring of each year for enrollment into classes for the next year. Sophomores will register for Junior classes & Juniors will register for Senior classes for the next year. Students must meet the prerequisites/criteria listed on the course sheet. Along with these, there are some additional variables that will help determine eligibility for college classes.

- At the time of registration students must have passed the required MCA test and/or be at or above grade level on their NWEA and/or ACT tests
- If a student has NOT passed the required MCA test, but has scored a Partial with a score of 45 or above, they can be admitted IF they score AT or ABOVE grade level on their corresponding NWEA or ACT. For example, if a student scored a 46 on the MCA-Math, but has a 3.0 or above in all HS math classes, they could apply for a college math class.
- Students must have at least a 3.0 GPA in their content area in order to enroll. For example, a student with a CUM GPA of 2.8 could still qualify for a college English class IF their HS English grades = a 3.0 average.
- Seniors may sign up for no more than 4 college classes in a semester
- Juniors may sign up for no more than 3 college classes in a semester
