Dear Parent or Guardian,

Ubah Medical Academy currently offers 9 college courses to juniors and seniors who qualify. Our collaborating colleges are the University of Minnesota and Normandale Community College. We use a variety of factors and criteria to determine eligibility for enrollment in these college courses as you will see on the attached forms.

Our data has shown us that some of the best indicators for success in college classes are the ability to pass the MCA Math, MCA Reading, and MCA Science tests. We also know that NWEA scores are very helpful in measuring a student's readiness for college classes. There is a very high correlation between the scores of these all of tests and academic success.

Included with this letter are: a chart of the prerequisites and an explanation sheet of what is expected of students wanting to enroll in college classes. Please discuss with your sons and daughters the importance of performing their best in their current classes, as well as, doing their best when taking their MCA and NWEA tests.

If you have any questions regarding this information, please feel free to call the Counseling Office @ 952-540-2947 or email Ms. Jackie (Jackie.oss@umahs.org)
